MAY WAR OVER DIRECTORS

Another Effort to Strike at City's Supremacy Seen in Election Rules.

Representatives of the five banks in this State designated by President Wilson's Organization Committee to act as incorporators of the Federal Reserve Bank of New York met yesterday in the board room of the New York Clearing House Association and executed the articles of incorporation. This marks another important step in the progress toward the establishment of a reserve bank in this city. It will be followed by meetings of bankers from Groups 1, 2 and 3, from all over the State at the Clearing House. Group 1 will meet at the Clearing House to-day, and the other groups will meet there on Friday.

Those who met at the Clearing House yesterday to execute the certificate were

Those who met at the Clearing House yesterday to execute the certificate were James H. Perkins, president of the National Commercial Bank of Albany and W. W. Batchelder, cashier; L. H. Gethoefer, vice-president of the Marine National Bank of Buffalo, and N. P. Clement, cashier; Rollin P. Grant, president of the Irving National Bank of New York and M. E. Ewer, cashier; A. W. Hudson, vice-president of the First National Bank of Buffalo, and E. T. Tefft, cashier.

Buffalo, and E. T. Tefft, cashier.

The articles of incorporation were delivered to William Shearer, manager of the Clearing House Association, and William J. Gilpin, assistant manager, who forwarded the documents to Washington by registered mail. registered mail

It is probable that at the group meet-ings there will be much discussion as to how the bankers shall vote for the directorate of the reserve bank. According to the instructions sent out by the organ-ization committee the electors may vote only for nominees of their own group. However, as leading bankers here in-terpret the letter of the Federal reserve act there is no group restriction placed on the electors.

New York bankers see in this ruling of the committee another effort to strike at the financial supremacy of this city, it was said yesterday. As the up-State bankers are favorably inclined toward New York and have always followed its lead there is a probability that they will inclined to take sides with the local bankers in voting according to the letter of the Federal reserve act rather than as directed by the organization committee

Manufacturers and Merchants File Protests to Gompers Commission.

Samuel Gompers and the State Factory Investigating Commission, of which he is chairman, sat all day in the County Court House yesterday hearing protests of manu-facturers, merchants and other property owners against the multiplicity of inspecowners against the multiplicity of inspec-tions to which they are subjected by vari-ous department of the city and State. Several witnesses, including Borough President Marks, said they knew of manu-facturers who intended to move to New Jersey unless relief was obtained, but no specific instance of this sort was revealed. City Chamberlain Bruere told of the City Chamberlain Bruere told of the city's plan to coordinate the various inspection agencies. Tenement House Commissioner Murphy thought reform could be accomplished without legislation. Lawrence Veiliier, a social worker, said: "Much of the complaint is due to the fact that the laws of this city are being strictly enforced for the first time in fifteen years." He thought most of the difficulty could be approach by congretion between depart.

He thought most of the difficulty could be removed by cooperation between departments. Water Commissioner Williams deemed a single, centralized inspection bureau impracticable.

FORD CO. MEN DENY POLITICS. Say Layoff of Auto Workers Takes

Place Every Year.

DETROIT, May 18.—"We will welcome a Federal investigation and any result-ing plans that might be submitted which will enable us to put idle men at work." said Vice-President James Couzens of the Ford Motor Company to-day, comment-ing upon Washington despatches saying that an investigation may be made by Federal officials into the laying off of thousands of men at the Ford plant.

The despatches said that the layoff might be found to be only an artificial condition created by the company as a slap at the Administration's business slap at the Administration's business policies. The Ford officials point out that any such view is erroneous. Mr. Couzens asserted that the laying off of men was nothing out of the ordinary for this season of the year and that it should not be taken as an indication of general

business conditions. "I see no reason why Washington should take notice of it," said Mr. Couzens. "In fact in years previous to 1914 we have laid off just as many men. The only difference this season is that we have advanced the period about a month ahead of time. In the past our quiet periods have come in June."

NEW YORK'S FEDERAL OBJECT TO MANY INSPECTIONS. CONSOLIDATED GAS CO. ASKS FOR \$25,000,000

Wants Public Service Commission to Permit Big Bond Issue.

The Consolidated Gas Company asked the Public Service Commission yesterday for permission to issue \$25,000,000 convertible debenture bonds and \$25,000,000 additional capital stock to redeem the bonds. The commission will set a date to-day for a hearing on the petition, which was signed by George B. Cortelyou, president of the company. The present authorized capital of the company is

\$100,000,000.

The debentures are to be applied for reimbursement of money spent as follows: For the capital stock of the New York Edison Company, \$5,101,000; for the capital stock of the New York Edison Company and of the Astoria Light, Heat and Power Company, \$12,397,600. The rest will be used to discharge \$5,000,000 of eight month collateral trust notes and \$2,500,000 of demand notes issued in 1906

The debentures are to be issued in deto be payable in five years, to bear interest at 6 per cent., and to be convertible, at the option of the holder, into stock of the company three years from date or at any interest date subsequent date or at any interest date subsequent thereto within five years, upon the basis of one share of stock for each \$100 par value of debentures. The proposed issue of capital stock is to be divided into 250,000 shares.

In the schedules attached to the petition the company says that it has declared dividends in the last five years as follows:
